

Under the “File”, “Edit”, and “Tools” drop down menus, you will find the exact same action buttons as on the MUNIS Toolbar. Once you enter a program, you will need to select an “action”, whether you want to find existing records, add new records, update existing records, delete existing records, etc...

Here are the Icons and their definition, along with the keyboard “shortcut” if you don’t want to use your mouse to click them:

Icon	Definition	Keyboard Shortcut	Icon	Definition	Keyboard Shortcut
